### CenterPoint Energy SCORE Program

Representatives from the CenterPoint Energy SCORE (Schools Conserving Resources) Program presented CFISD with an incentive check for \$155,788.50 during the regularly scheduled Board meeting in January for incorporating energy-efficient lighting, heating and cooling equipment into several facilities.

Incentives from the SCORE Program are determined by the total amount of energy saved. The high-efficiency lighting and air conditioning systems installed by CFISD will save more than 1,700,000 kilowatt-hours of electricity per year, compared to standard equipment. This is equivalent to preventing the carbon dioxide emissions of almost 140,000 gallons of gasoline, according to Environmental Protection Agency calculations.
