Original Credits

Students may earn $\frac{1}{2}$ credit (L-level) each session. **To get credit for the course, students may not be absent more than 2 days during each session.**

Original Course Offerings

Original credit courses are designed for these students: (1) students who need a course to meet promotion standards; (2) students who are eight credits from graduation; (3) students who are planning to graduate early; or (4) students who are accelerating a course sequence to be able to take upper-level courses. In order to be successful on the End-of-Course tests, students must be enrolled in the appropriate English, math, science, or social studies courses in grades 9-11. Therefore, the following criteria for enrollment in original credit courses must be met. Students taking original credit courses in the four core academic areas **must meet (1) all prerequisites for the course and (2) any additional criteria listed** in the chart below. It is strongly recommended that students taking original credit courses in the four core academic areas currently be **earning an A or B** in a course in that content area or have a **passing score** on the most recent State assessment test in that content area.

Attendance and Absences

- Students who are absent from class for more than **two days for any reason** during either session will be withdrawn and **no credit or refund granted**. This applies to both original credit courses and make-up credit courses. Being absent for two days of summer school is comparable to being absent 18 days during the regular term.
- Three tardies in any class will count as one day of absence. A tardy will be assessed for late arrival in the morning and for late arrival following the lunch period and breaks; however, students arriving 15 or more minutes late in the morning will be marked absent ½ day.
- Summer school students taking an EOC are expected to report to the summer school site within one hour of completing the EOC exam.
