## Applying for Scholarships

The Whitacre College of Engineering offers a number of externally funded scholarships.

- Incoming freshman and transfer students can apply at [www.applytexas.org](http://www.applytexas.org).
- Current students can apply at [www.scholarships.ttu.edu](http://www.scholarships.ttu.edu) and click on the link under "General Scholarship Information."

Once a student applies, he/she is matched to the scholarship for which he/she qualifies. The general scholarship application covers all scholarships — students do not apply for individual scholarships.

## Scholarship Information

### College Requirements

Students must:

1. Enroll as a full-time student (minimum 12 hours) in accordance with the student's engineering degree plan.
2. Maintain a 3.25 GPA or higher.
3. Write a letter of appreciation to the donor (see the Engineering Opportunities Center for more details).
4. Attend a Donor Appreciation breakfast to be held on the Texas Tech Homecoming weekend.

College scholarships are awarded for one year only and students must reapply each year.

### Awarding Method

Scholarships are awarded by the following criteria

- 1.Merit.
- 2.Financial need as determined by the FAFSA□.
- 3.Individual scholarship requirements.

### **Departmental Requirements**

Students must:

- 1.Enroll as a full-time student (minimum 12 hours) in accordance with the student's engineering degree plan.
- 2.Meet department-specific scholarship requirements.

### **Deadline for Applications**

- February 1 of each year.

(This date does not change, even if February 1 falls on a weekend.)
