## RAMS 457(b) Managed Portfolios \_\_\_\_\_

## What is a 457(b) plan?

A 457(b) plan is a retirement savings plan that allows employees to make contributions on a pretax basis, thus income taxes are deferred until your assets are withdrawn. Most plans allow you to start, stop, increase or decrease contributions at any time.

The contribution limits are separate from those of 401(k) and 403(b) plans and more flexible withdrawal options are often available.

Aggressive Growth Portfolio is for those interested in growth and who are willing to assume the risk of a fluctuating stock market. They have time to recover from a potential loss if a long-term downtrending market occurs. This investor is seeking above average returns.

Target Allocation: 100% Stocks

Targeted Age Range: 20-45

- ★ Easy-to-choose, professionally managed portfolio options
- ★ No 10% early distribution penalty tax
- ★ No surrender charges and no hidden fees
