

- **Cy-Fair HS** – The existing six lane track was rebuilt and upgraded to an eight lane track in 2015. An irrigation system was added to the athletic field, which was replaced with natural turf.
- **Cypress Lakes HS** – Existing field turf was replaced with the new artificial turf, track and field events were resurfaced and a new high jump pad was added. Additionally, the drainage system around the track was reworked to allow for better drainage.
- **Cypress Ranch HS** – The track and event fields were resurfaced, new artificial turf was installed and a new high jump pad was added.
- **Cypress Ridge HS** – The track and event field were resurfaced and an irrigation system was installed.
- **Cypress Spring HS** – The track was resurfaced and an artificial turf field and new shot put area were installed and in 2016.
- **Cypress Woods HS** – The existing high jump area, track and event fields were resurfaced and new artificial turf was installed.
- **Jersey Village HS** – New field events were added and the seven-lane track was upgraded to an 8-lane track and resurfaced.
- **Langham Creek HS** – New artificial turf was installed on the competition football field. The synthetic running track was resurfaced. All athletic field events (long jump, discus, shot put) were resurfaced and/or replaced. **This project was a part of a four-campus outdoor athletic project for artificial turf athletic fields, which consists of Cy-Fair HS, Cy Creek HS & Cy Ridge HS.**
- The remaining high school tracks are being done in the phase V projects which have already begun (Lakes, Ranch & Woods)

Total HS track and field upgrade cost: \$16.9 million
