

2014 Bond - Middle School Track & Field Projects

Anthony Middle School - \$988,461.99

Currently in the design phase. 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. A new shot put, pole vault, discus, long/triple jump and high jump will be provided to Anthony Middle Schools athletics field.

Aragon Middle School – \$717,968.27

Currently in the design phase. Outside, a 4-lane/400-meter structural spray track with two (2) chutes and practice football field with irrigation will be added.

Arnold Middle School - \$907,495.83

Currently in the design phase. A lot of work will go into updating the track and field at Arnold Middle School. Around the field, a 4-lane/400-meter structural spray track with two (2) chutes will be added. In addition to the spray track, irrigation will be added to the practice football field where a new high jump, long/triple jump, new shot put, pole vault and discus will be installed.

Bleyl Middle School - \$1,783,454.25

A Phase VI project with an estimated completion date of August 2020. The football field – strip off, regrade root zone and re-sod and replace the existing irrigation. A 4-lane/400-meter structural spray track to include two chutes and high jump will be added. New bleachers at the football field will sit atop a new concrete pad. Included in the new additions are a new shot put, long/triple jump, discus and pole vault. The current chain link fencing will be replaced with new 4-inch chain link fencing around the football field. To make top off the track and field renovation at Bleyl, the sports lighting around the football field will be replaced.

Campbell Middle School – \$1,495,372.37

A Phase VI project with an estimated completion date of August 2020. A 4-lane/400-meter structural spray track to include two chutes and high jump and irrigation will be added. New bleachers at the football field will sit atop a new concrete pad. Included in the new additions are a new shot put, long/triple jump, discus and pole vault. The current chain link fencing will be replaced with new 4-inch chain link fencing around the football field. To make top off the track and field renovation at Campbell, the sports lighting around the football field will be replaced.

Cook Middle School – \$978,568.66

A Phase VI project with an estimated completion date of August 2020. A 4-lane/400-meter structural spray track to include two chutes and high jump and irrigation will be added. Included in the new additions are a new shot put, long/triple jump, discus and pole vault. The current chain link fencing will be replaced with new 4-inch chain link fencing around the football field.

Dean Middle School - \$1,490,293.04

Completed - A 4-lane/400-meter structural spray track to include two chutes and high jump and irrigation will be added. Included in the new additions are a new shot put, long/triple jump, discus and pole vault. The current chain link fencing will be replaced with new 4-inch chain link fencing around the football field which was regraded and re-sodded. New sports lighting was placed around the football field.

Goodson Middle School - \$907,495.83

Completed in August 2017. A 4-lane/400-meter structural spray track with 2 chutes, high jump pad were added to the practice football field where an irrigation system was added as well. In addition to the new track, a new shot put, long/triple jump, discus and pole vault were added to the athletic field.

Hamilton Middle School – \$969,092.27

Currently in the design phase. Proposed a 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. Intend to provide a new press box with storage underneath.

Hopper Middle School – \$907,495.87

A Phase VI project with an estimated completion date of August 2020. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. A new discus, pole vault, long/triple jump, and shot put are included in this renovation.

Kahla Middle School – \$907,495.84

A Phase VI project with an estimated completion date of August 2020. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. A new discus, pole vault, long/triple jump, and shot put are included in this renovation.

Labay Middle School - \$1,405,542.01

Currently in the design phase. Regrade/re-sod football field with a proposed 4-lane/400-meter structural spray track with 2 chutes, high jump and practice football field with irrigation. A new concrete walk from the gate to the bleachers will be added, along with a new press box with storage underneath, new discus, pole vault, long/triple jump and shot put.

Salyards Middle School - \$907,495.80

A Phase VI project with an estimated completion date of August 2020. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. A new discus, pole vault, long/triple jump, and shot put are included in this renovation.

Smith Middle School - \$717,968.27

A Phase VI project with an estimated completion date of August 2020. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation will be added.

Spillane Middle School - \$717,968.27

Currently in the design phase. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation will be added.

Thornton Middle School - \$1,158,619.83

Currently in the design phase. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. A new discus, pole vault, long/triple jump, and shot put, along with a new press box with storage underneath are included in this renovation.

Truitt Middle School - \$1,158,619.83

Currently in the design phase. A proposed 4-lane/400-meter structural spray track with 2 chutes, high jump pad and practice football field with irrigation. A new discus, pole vault, long/triple jump, and shot put, along with a new press box with storage underneath are included in this renovation.

Watkins Middle School - \$1,886,269

Completed in August of 2017. The first stage of this renovation occurred with stripping off, re-grading the root zone and re-sodding the football field. During this time, the existing irrigation was replaced. New bleachers were purchased and installed on a new concrete pad, which all overlooked the 4-lane/400-meter structural spray track with 2 chutes, a high jump pad, new goal posts, shot put, long/triple jump, discus and pole vault.

Completed: \$4,284,057.87

Design Phase: \$9,002,336.96

Phase VI: \$6,719,282.40

Total of all middle school phases: \$20,005,677.23
