

ALC Order of Placement – Successful Days of Attendance

Students placed at the ALC are required to have successful days of attendance to complete their order of placement.

LEAD Safely & ALC Placement Credit Guidelines

Cypress-Fairbanks ISD and the Alternative Learning Centers remain committed to providing a safe learning environment for all students and staff. Parents and students may access the district's LEAD Safely plan on the district website. [CFISD Lead Safely 2021 - 2022](#)

CFISD's Lead Safely plan outlines the health and safety protocols for staff, students and visitors.

- Students, staff and visitors must screen daily (prior to entering a school bus or school) for symptoms of COVID-19. If symptoms are experienced, individuals must not report to school or work until evaluated by a licensed healthcare provider.
 - Symptoms of COVID-19 include:
 - Cough
 - Shortness of breath or difficulty breathing
 - Loss of taste/smell
 - Nasal congestion
 - Sore throat
 - Headache
 - Fever at or above 100°F
 - Vomiting/diarrhea

To provide a safe environment for all and to prevent the spread of COVID-19, a [5-day grace period](#) will be provided to allow ALC students with COVID-19 symptoms to 1) see a licensed healthcare provider, 2) schedule a COVID-19 test and 3) provide ALC with test results--either positive or negative. Timely communication and documentation must be returned to ensure placement credit is coded accordingly.

Students who test positive for COVID-19 shall enter isolation. Individuals shall not go to school, must report his/her absence to the Attendance Secretary, and should isolate themselves from others for a minimum of [5 days](#) after symptom onset or positive test date (whichever occurred first). [With documentation, a doctor's note and a positive test result, these isolation days will count toward a student's placement.](#)

Students may return to school after 5 days of isolation if all symptoms are improving or resolved and fever (100.0 F or above) has been absent for at least 24 hours without using fever-reducing medication. Additional documentation from a licensed healthcare professional will be required if a student is not able to return after 10 days.

The same [5-day grace period](#) will be applied if a student has been directly exposed to an in-home positive individual and the family is choosing to quarantine to slow the spread. Proof of a positive COVID test must be provided.
