Our Principal's Outreach to Our Parents

- It is my pride and pleasure to serve as your child's principal this year. I take that responsibility and honor very seriously. Please feel free to call me on my direct line (281-807-8685) if you ever have any questions, concerns, or comments. My door is always open to your visit.

- I always say that I have the best job in the world with the possible exception of Guy Fieri who stars on "Diners, Drive-In's and Dives." He drives across our nation eating mouth-watering food and commenting on it. Well, what makes *MY* job even better than Guy Fieri's is that I get to watch students create the best version of themselves through the power of ...
 - ♥ a small, cohesive campus which emphasizes a sense of belonging,
 - ♥ small-size classes in which students engage meaningfully in lesson activities, and
 - ♥ high interaction with caring adults who are heavily invested in their futures.

- I have raised three children of my own, and I always tell my students that I will hold them to the same standards of behavior and attitude that I did my own children. More importantly, I will also cling to them to make sure they are successful just as I did my own children.

- Please know that my leadership philosophy is based on the principle of serving others. We are here to serve our students, parents, and community members. We will serve you with respect, and we believe you will respond in the same way.

- Servant leadership requires that we set a high standard for ourselves, but we believe that students will respond in memorably positive ways, making our extra effort infinitely worthwhile!

With warmth and affection for the school community we serve,

Martha Strother, Principal
