Courses Allowed on a Pass/Fail Basis

Cypress-Fairbanks I.S.D. wants to encourage students to pursue their areas of special talents and aptitudes and to enrich their academic achievement through efforts both in and out of the public school setting. Academically-able and talented students frequently forfeit opportunities to study in their areas of talent and interest. To encourage these students to explore areas of interest in depth while they are in high school, the district is offering the following courses to students in grades 11 and 12 on a pass/fail basis. To qualify to take a course for pass/fail, the student must have completed two L-level credits in the defined sequence/program of study.
