

Cypress Ranch High School Grading Guidelines

Testing Schedule

Departments will do their best to adhere to the testing days listed below. However, exceptions may be made and communicated to students.

- Odd Days: English, Math, CTE
- Even Days: Social Studies, Science, LOTE

Retest/Redo

- Summative Assessment: A student has one opportunity each grading period to retake a test for which he/she earned a failing grade (a grade below 70).
- Relevant Application: A student has at least one opportunity each grading period to retake a relevant application for which he/she earned a failing grade (a grade below 70).
- Check for Understanding: A student has at least one opportunity each grading period to retake an assignment for which he/she earned a failing grade (a grade below 70).

Please note:

- The student must request and complete a retest/redo within one week of the grade being posted in Home Access Center (HAC).
- A tutorial session may be required before a retest is allowed.
- The highest grade a student can earn on a retest/redo is a 70.
- If a student earns a grade lower than the original grade on a retest/redo, the original grade will remain.
- District tests/benchmarks/semester exams are not eligible for retest/redo.
- If a student refuses to complete an assignment, he/she will receive a zero. Assignments that are failing because a student refuses to complete them are not eligible for redo.
- Assignments that are failing due to late work guidelines are not eligible for redo.
- If a student receives a zero for academic dishonesty/cheating, the assignment is not eligible for redo.
- Grading closes at the end of the grading period.

Late Work

- It is an expectation that students will turn assignments in on time. However, in the event that a student misses a deadline, late work will be accepted within four days of the assignment due date. Points will be deducted each day an assignment is late. Late work will not be accepted if it is more than four days late.

Number of Days Late	Points Deducted
1	10
2	20
3	30
4	40
