COMPREHENSIVE NEEDS ASSESSMENT (CNA) PROCESS

Cypress Ridge High school's needs assessment process is described below. The school Campus Performance Objectives Council (CPOC) evaluated the following data from the 2022-23 school year:

- Local Accountability System Data (DPM)
- STAAR Current and longitudinal results
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Campus Discipline Data
- Campus Attendance Data
- Employee Perception Survey Responses
- Advanced Placement (AP) assessment data
- Dual Credit enrollment and performance data
- Industry Based Certification Data
- Student Failure and retention rates

Documentation of the process includes meeting minutes, agenda, and sign in sheets. The CPOC met on May 23, 2023 and again on September 19, 2023 to develop and finalize the CNA. The meetings were held in in the .Principal's Conference Room of cypress Ridge High School at 4pm.

At the first meeting on May 23, 2023 , principal Stephanie Meshell went over campus celebrations and then looked at each of the 4 main goals of the CIP . For each goal, the committee discussed what the strengths were and what areas of improvement were needed for the upcoming year. The committee also looked at the anticipated expenditures of Title I funds to address the areas of improvement.

At the second meeting on September 19, 2023 the CPOC revisited the proposed Title I expenditures and looked at updated STAAR EOC data, discipline data, and discussed planned changes for the upcoming school year to address the identified areas of need.

The problem statements and root causes are listed in each section of the needs assessment.

SUMMARY OF IDENTIFIED PROBLEMS AND ROOT CAUSES

Below is a summary of the prioritized problems and related root causes identified by the CPOC for the school to focus on during the 2023-24 school year:

Our first identified priority problem is in the area of student achievement, specifically there is a 20% decline between the Approaches and the Meets categories on the English II STAAR Test. Through the root cause analysis process, we identified that our English II team was uncertain of the skills to successfully demonstrate the higher order thinking of the bubble students.

Our second identified priority problem is in the area of student achievement, specifically our Hispanic population performed significantly lower on the Biology STAAR test and this is our largest population. Through the root cause analysis process, we identified the science language and terminology is creating a barrier to learning the biology concepts.

Our third identified priority problem is in the area of student attendance, specifically our student attendance fell significantly and is well away from our goal of 96%. Through the root cause analysis process, we identified that we needed better processes for identifying and addressing our chronically absent and skipping students.
