**The length of each unit is not specific to a number of days, but it is dependent upon the materials used and the complexity of the assignment. Oftentimes, units are combined. The purpose of this flexibility is to allow teachers the opportunity to plan for the needs of their students and to accommodate re-teaching or review when necessary. If pre-assessment indicates student mastery could be achieved in a fewer number of days, the additional time could be used for extension or carried into the next unit.
