

March 3, 2021

**Message from Harris County Public Health**

Local news is reporting that some private companies are opening vaccine appointments to school staff after the Biden Administration's request to vaccinate all school staff and childcare workers with at least one dose by the end of March. You can see what is available here:

<https://vaccinefinder.org/>

Official state guidance has not changed; until that time, HCPH can only vaccinate people eligible under 1A and 1B.
